Frilli Srl

distillates, raw alcohol, extra neutral and absolute alcohol, with its own know-how, advanced technologies and experience developed worldwide.

The company, realizing more than 90% of its turnover abroad, is constantly and continuously growing, as world-trade appreciates its leading technical and technological skill.

Reliability, honesty, an excellent quality/price ratio together with pre- and after-sales services are its strength and allow it to be always up to the situation, giving quick and qualified answers.

Raw materials

- By-products of wineries (pomace, lees, wine)
- Cane and beet molasses
- Cereals: corn, wheat, barley, rice
- Other starchy substances: potatoes, cassava, chestnuts, etc.
- Other sugary substances: sorghum, grape, cane and beet juice
- Fruits: apples, peaches, apricots, cherries, plums
- Exotic fruit: dates, bananas, pineapples, papaya, mango, etc.
- Aromatic herbs, seeds and berries.

For some years, the company has been highly successful also in the field of Whisky and Gin, rum, extra neutral alcohol, and bioethanol, by designing, manufacturing and supplying both continuous plants with columns in Eastern Europe, Asia, Africa and South America, as well as discontinuous pot stills with traditional onion shape in Scotland, Ireland, Russia, the USA and Australia. In particular, it is worth mentioning the supply of a neutral alcohol and bioethanol production plant to the company Producaro S.A. in Ecuador.

Workshop
